

## CONSTRUCTION UPDATE: Week of May 9, 2022

**Crews continue work on the western span of the new bridge.**

### Construction Update

- **ROADWAY EXCAVATION** and curb and gutter work related to the block wall work continues on Hamner Avenue near Citrus Street.
- **SLOPE WORK** continues on the west side of Hamner Avenue south of the bridge as crews build the new, three-lane southbound roadway.
- **CARPENTERS** continue working on the bridge deck and iron workers are placing rebar for the support wall on the western span of the bridge structure.

Carpenters and iron workers constructing the next segment of the new western bridge span. They are working to connect the bridge support abutment wall (left side) with the current bridge structure (right side).

Crews making progress and working towards the next concrete placement for the next segment of the new western bridge span. The top portion of the structure shows the current state of the bridge deck, the bottom section shows the current state of the "interior" or the stem and soffit of the bridge.
