

Construction Alert: Week of Nov. 15, 2021

Daytime lane closures planned on Hamner Avenue at Citrus Street for waterline completion.

Daytime lane closures

Monday - Wednesday
Nov. 15-17 | 7 a.m. to 5 p.m.
Hamner Ave. at Citrus St.

To turn right onto Citrus Street, motorists must use the existing through-lane on Hamner Ave. The closure is necessary to complete the waterline installation work. Please plan for delays in the area and use alternate routes.

Project Milestones

Construction of the temporary bridge structure, called falsework, crossed the Santa Ana River to the north.

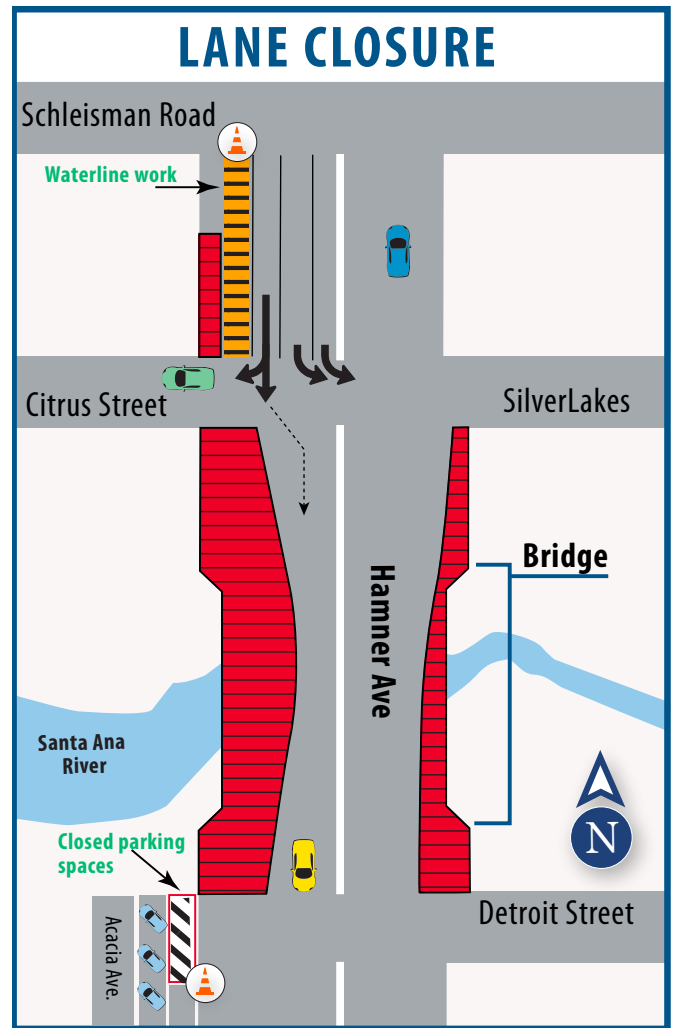

Construction on the 12 bridge support columns in the Santa Ana River riverbed is nearly complete. The remaining columns under construction north of the river will be finished later this month.

The new waterline installed at the north end of the project near Citrus Street will be completed this week.

Project Update

The west span of the new bridge is expected to be finished in Spring 2022.

Crews will begin excavation for a retaining wall on the northwest part of the project. Expect the existing lane closure on Hamner Avenue to continue.
